## CAGE CODE

**21H94**

## PRIMARY NAICS

**541611**

## ADDITIONAL NAICS

**561110 · 541511****CERTIFICATION** SBA-Certified Woman-Owned Small Business (WOSB)**CORE COMPETENCIES****Revenue Protection & RCM Assessments**

Evaluate patient intake, insurance verification, documentation, claims, payment posting, adjustments and receivables to identify revenue exposure.

**Operational Dependency & Control Mapping**

Identify single-person dependencies, handoff failures, oversight gaps and financial control weaknesses.

**Workflow & SOP Architecture**

Design repeatable processes, accountability standards, escalation paths and management reporting across locations.

**Fractional Strategic Oversight**

Provide leadership-level assessment, prioritization, performance monitoring and implementation guidance.

**DIFFERENTIATORS**

- 36 years of end-to-end dental experience — clinical chairside, front-office administration, practice leadership and dental billing company ownership.
- Revenue Protection Architecture™ — a systems-based approach focused on finding breakdowns before they surface in accounts receivable.
- Technology-informed approach — experience across major dental practice-management systems; proprietary monitoring software is in development, not yet a delivered product.

**PAST PERFORMANCE**

Dental billing and operational turnaround: in a prior engagement, accounts receivable declined from approximately \$322,524 to \$164,000 over three months. This is a historical example, not a guarantee of future results. Experience includes insurance workflows, claim resolution, credentialing, collections and multi-practice oversight.
